News: Marapi Volcano

- Recently, the **Marapi volcano in West Sumatra, Indonesia**, erupted, ejecting ash up to 3,000 meters (9,840 feet) into the air and causing casualties.
- Mount Marapi, which means “**Mountain of Fire**”, is the **most active volcano on Sumatra island** and its most deadly eruption was in April 1979, when 60 people were killed.
- Indonesia **sits on the Pacific's "Ring of Fire"** and has 127 active volcanoes.
- Despite being one of the most dangerous volcanoes in the world, **Mount Merapi is a famous tourist destination**.
- Mount Merapi, along with other volcanoes like Mount Semeru and Mount Bromo, continues to be a popular adventure destination in Indonesia.
